OFFICIAL EXIM HANDBOOK

AI for Importers

Practical Ways AI Can Support Documentation, Research & Workflow Tasks

Mentor: Krishnakumar

30 Years Logistics, Customs & EXIM Documentation Experience

Comprehensive Edition

42 Pages • Digital PDF

Table of Contents & Curriculum

1 AI-Powered Documentation Auditing

2 AI Prompts for Customs Research & Query Drafting

🎯 Mentor's Action Checklist & Operational Rules

- ✓ Never input proprietary trade secrets or banking credentials into public AI models
- ✓ Always have a qualified human verify HSN code suggestions against official CBIC tariff
- ✓ Use structured templates for auditing supplier documentation

CHAPTER 1

AI-Powered Documentation Auditing

Using generative AI models to review commercial shipping documentation before submission saves thousands in amendment penalties: - Automating cross-checks between Commercial Invoice and Packing List. - Auditing supplier contracts for missing delivery liability clauses. - Checking mathematical precision across unit prices, quantities, and totals.

CHAPTER 2

AI Prompts for Customs Research & Query Drafting

How to write high-precision prompts to draft technical replies to ICEGATE Customs queries: Provide the product description, technical datasheet, and officer query. Prompt the model to structure a formal, legally respectful reply citing relevant Section and Chapter Notes.
