Practical Workshop Edition • 2026

OFFICIAL EXIM HANDBOOK

Import Costing & Landed Cost

Break Down Real Duties, Freight, Port Surcharges & True Landed Costs

Mentor: Krishnakumar

30 Years Logistics, Customs & EXIM Documentation Experience

Comprehensive Edition
48 Pages • Digital PDF

Table of Contents & Curriculum

1 Assessable Value (AV) & Customs Exchange Rates

2 Customs Duty Structure: BCD, SWS & IGST

3 Terminal, Forwarder & CFS Expenses

🎯 Mentor's Action Checklist & Operational Rules

- ✓ Compute assessable value using current CBIC notified exchange rate
- ✓ Verify BCD and IGST exemption notification numbers
- ✓ Incorporate port CFS handling and shipping line DO fees in landed sheet
- ✓ Reconcile IGST paid on ICEGATE with GSTR-2B for full Input Tax Credit

Confidential & Proprietary Training Material

CHAPTER 1

Assessable Value (AV) & Customs Exchange Rates

The Assessable Value for Indian Customs is based on the CIF price converted into Indian Rupees using the exchange rates notified fortnightly by the Central Board of Indirect Taxes and Customs (CBIC), NOT commercial banking rates.

CHAPTER 2

Customs Duty Structure: BCD, SWS & IGST

The duty calculation sequence follows statutory hierarchy: 1. Basic Customs Duty (BCD) = Assessable Value × BCD Rate. 2. Social Welfare Surcharge (SWS) = 10% on BCD amount. 3. Taxable Base for IGST = Assessable Value + BCD + SWS. 4. Integrated GST (IGST) = Taxable Base × Applicable GST Rate (5%, 12%, 18%, or 28%). Note: IGST paid on imported commercial goods is 100% creditable as Input Tax Credit (ITC) on GSTR-3B.

CHAPTER 3

Terminal, Forwarder & CFS Expenses

Beyond government duties, the landed cost must incorporate: - Terminal Handling Charges (THC) at origin and destination. - Shipping Line Delivery Order (DO) documentation fees. - CFS Destuffing, ground rent, and handling charges. - Customs Broker (CHA) agency and clearance professional fees. - Inland transportation from port/CFS to importer warehouse.
